Subject Index

Acute phase proteins in pulmonary tuberculosis during therapy, changes in, 193
Adenitis, postvaccinal BCG, 145
Adenosine deaminase in peritoneal tuberculosis, diagnostic value in ascitic fluid and serum, 121
Adrenocortical function in pulmonary tuberculosis, 277
AIDS-associated *M. avium* isolates, plasmids extracted from, characterisation, 181
Albumin in pulmonary tuberculosis during therapy, changes in, 193
Amikacin, free and liposome encapsulated, effects on *M. avium* complex survival in peritoneal macrophages, 215
Ascitic fluid, adenosine deaminase in, diagnostic value in peritoneal tuberculosis, 121
Attitudes about tuberculosis of black hospitalised TB patients, 55

Bahrain, epidemiology of tuberculosis in, 51
BCG vaccination
  adenitis following, 145
  at birth in the United Arab Emirates, evaluation, 177
  cancer and, 61
Birth, BCG vaccination in the United Arab Emirates at, evaluation, 177
Black hospitalised TB patients, knowledge and attitudes about tuberculosis of, 55
Bleeding gastric varices, hepatic tuberculosis as a cause of, 225
Breast tuberculosis of the, 221

Cancer, BCG vaccination and, 61
Carbon dioxide tension, transcutaneous, in monitoring of response to tuberculin skin testing, 15
Carcinoma, medullary thyroid, tuberculosis of the thyroid bed presenting as, 301
Cardiac tamponade due to mediastinal tuberculous lymphadenitis, 219
CGP40/469A activity against mycobacteria, 109
Chemotherapy-receiving tuberculosis patients, short-term, chromatid exchange in lymphocytes, of, 173, *see also* Drugs *and specific drugs*
Children, *see also* Infant
  enzyme-linked immune sorbent assay using adsorbed mycobacterial sonicates in, diagnostic value, 127
  tuberculous meningitis in Chinese, factors of prognostic significance, 161
Chinese children with tuberculous meningitis, factors of prognostic significance, 161
Chromatid exchange in lymphocytes of short-term chemotherapy-receiving tuberculosis patients, 173
Chromosome damage in untreated tuberculous patients, 169
Complement activation in pulmonary tuberculosis, 103
Compliance to therapy of patients in a rural service programme in Ghana, 247
Culture technique for tubercle bacilli, single step, 267
Cutaneous vasculitis associated with tuberculosis and its treatment, 297, *see also* Skin

Diabetes mellitus prevalence in patients with pulmonary tuberculosis in Tanzania, 271
Drug(s), *see also* Chemotherapy *and specific drugs*
  in combination, 241
  resistance to, *see* Resistance

Eczema vaccinatum, 145
Enzyme-linked immune sorbent assay using adsorbed mycobacterial sonicates, diagnostic value in children, 127
Epidemiology of tuberculosis in Bahrain, 51

FCE222807 activity against mycobacteria, 109

Gastric varices, bleeding, hepatic tuberculosis as a cause of, 225
Ghana, rural service programme in, patient compliance to therapy in a, 247
Glucose intolerance in pulmonary tuberculosis, 135
Gold miners, South African, pulmonary tuberculosis, 39

Heaf gun, relative sensitivities of two types of, 117
Henna, tuberculostatic activity, 293
Hepatic tuberculosis as a cause of bleeding gastric varices, 225
HLA phenotypes in tuberculosis patients, 187
Hospitalised TB patients, black, knowledge and attitudes about tuberculosis of, 55

Imipenem treatment of *M. fortuitum* and *M. chelonae* lung infections, 131
Immunoglobulin in pulmonary tuberculosis during therapy, changes in, 193
Immunotherapy, 237
  of pulmonary tuberculosis with *M. vaccae, see Mycobacterium vaccae*
India, South, 3 month and two 5 month regimens for treatment of sputum-positive pulmonary tuberculosis, in, 253
Infant, tuberculosis of the penis in an, 229, *see also* Children
Interstitial nephritis, tuberculous, 5

Isoniazid
with *M. avium-intracellulare* complex, *in vitro* bacteriostatic and bactericidal activity, 199
salivary levels in tuberculous patients, 29

Kidney allograft tuberculosis, 147
Knowledge about tuberculosis of black hospitalised TB patients, 55
Kuwait, investigation of pulmonary tuberculosis patients in, prior to studies of immunotherapy with *M. vaccae*, 77

Lawsonia inermis, tuberculostatic activity, 293
Liposome(s)
amikacin encapsulated in, effects on *M. avium* complex survival in peritoneal macrophages, 215
in tuberculous mice, distribution, 209
Lymphadenitis
mediastinal tuberculous, cardiac tamponade due to, 219
superficial tuberculous, treatment, 1
Lymphocytes, chromatid exchange in, in short-term chemotherapy-receiving tuberculosis patients, 173

Macrophages, peritoneal, *M. avium* complex survival in, effects of free and liposome encapsulated amikacin on, 215
Mediastinal tuberculous lymphadenitis, cardiac tamponade due to, 219
Medullary thyroid carcinoma, tuberculosis of the thyroid bed presenting as, 301
Meningitis, tuberculous, Chinese children with, factors of prognostic significance, 161
Microwave killing of *M. tuberculosis*, with simultaneous tissue fixation, 7
Miners, gold, South African, pulmonary tuberculosis in, 39
Mycobacteria
adsorbed, enzyme-linked immune sorbent assay using sonicates of, diagnostic value in children, 127
rifamycin FCE222807 and CGP40 (SPA-S-565) activities against, 109
Mycobacterium asiaticum, pulmonary disease caused by, 303
Mycobacterium avium
AIDS-associated isolates, plasmids extracted from, characterisation, 181
thiacetazone activity against, 287
Mycobacterium avium-intracellulare complex
isoniazid activity on, *in vitro* bacteriostatic and bactericidal, 199
paraffin wax metabolism in the speciation of, 23
Mycobacterium chelonae lung infections, ofloxacin and imipenem treatment in, 131
Mycobacterium fortuitum
ofloxacin bactericidal and inhibitory concentrations with, therapeutic implications, 205
ofloxacin and imipenem treatment in lung infections of, 131
Mycobacterium tuberculosis
drug resistance trends in, 283
killing by microwaves with simultaneous tissue fixation, 7
plasmid investigation in, 43
thiacetazone activity against, 287
Mycobacterium vaccae, immunotherapy of pulmonary tuberculosis with as an adjunct to chemotherapy, 87
improved, 259
investigation of patients in preparation for studies of, 77

Natural killer cell activity in pulmonary tuberculosis patients, 95
Nephritis, tuberculous interstitial, 5

Ofloxacin
with *M. chelonae* infections, 131
with *M. fortuitum* infections, 131, 205
Oxygen tension, transcutaneous, in monitoring of response to tuberculin skin testing, 15

Pancreatitis, tuberculous, 65
Paraffin wax metabolism in the speciation of *M. avium-intracellulare*, 23
Patient compliance to therapy in a rural service programme in Ghana, 247
Penis, tuberculosis of the, in an infant, 229
Peritoneal macrophages, *M. avium* complex survival in, effects of free and liposome encapsulated amikacin on, 215
Peritoneal tuberculosis, adenosine deaminase in, diagnostic value in ascitic fluid and serum, 121
Plasmids
from AIDS-associated *M. avium* isolates, extraction and characterisation, 181
in *M. tuberculosis*, evidence for, 43
Pleurisy, tuberculous, family outbreak of, 139
Proteins, serum, in pulmonary tuberculosis during therapy, changes in, 193
Pulmonary disease, *M. asiaticum* as a cause of, 303
Pulmonary tuberculosis
abacillary, 35
adrenocortical function in, 277
complement activation in, 103
diabetes mellitus prevalence in patients with, in Tanzania, 271
glucose intolerance in, 135
immunotherapy with *M. vaccae*, *see Mycobacterium vaccae*
natural killer cell activity in, 95
serum proteins during therapy in, changes in, 193

in South African gold miners, mycobacteriology, 39
3 month and two 5 month regimens for treatment of sputum-positive, in S. India, 253

Renal allograft tuberculosis, 147
Resistance, drug
a case of, 141
in *M. tuberculosis*, 283
Respiratory metabolism in skin, assessment, for monitoring of response to tuberculin skin testing, 15
Rifampicin
bioavailability, 241
salivary levels in tuberculous patients, 29
Rifamycin FCE222807 and CGP40/469A (SPA-S-565) activities against mycobacteria, 109
Rural service programme in Ghana, patient compliance to therapy in a, 247

Serum
adenosine deaminase in, diagnostic value in peritoneal tuberculosis, 121
proteins in, in pulmonary tuberculosis during therapy, changes in, 193
Skin, respiratory metabolism in, assessment, for monitoring of response to tuberculin skin testing, 15, *see also* Cutaneous vasculitis
South African gold miners, pulmonary tuberculosis in, 39
SPA-S-565 activity against mycobacteria, 109

Tamponade, cardiac, due to mediastonal tuberculous lymphadenitis, 219
Tanzania, diabetes mellitus prevalence in patients with pulmonary tuberculosis in, 271
Thiacetazone activity against *M. avium* and *M. tuberculosis*, 287
Thyroid bed, tuberculosis of the, presenting as recurrent medullary thyroid carcinoma, 301
Tissue fixation, microwave killing of *M. tuberculosis* with simultaneous, 7
Tuberculin skin testing, assessment of respiratory metabolism in skin for monitoring of response to, 15

United Arab Emirates, BCG vaccination at birth in the, evaluation, 177

Vaccination, BCG, *see* BCG vaccination
Varices, bleeding gastric, hepatic tuberculosis as a cause of, 225
Vasculitis, cutaneous, associated with tuberculosis and its treatment, 297
